

SERVICES

We offer variety of services that make our support comprehensive and professional. At a specific request of our Customers, we offer "on spot" services such as:

- laminating sheets;
- rewinding strips;
- cutting rods and tubes to length.

We also own a well-developed fleet of commercial vehicles, which enables quick execution of orders and delivery to Customers. Transportation services are fulfilled within territory of Poland and outside in short time and with competitive prices.

Additionally, we provide services, which are executed by outsourcing companies, such as:

- anodizing and painting;
- cutting sheets and strips;
- roll forming trapezoidal sheets.

Our outsourced services include also execution of details based on Customer's technical documentation, which are blanks for subsequent stages of production as well as finished parts made of brass, copper, aluminum, etc., used in various industries.

We cooperate with companies which have extensive experience in the processing of non-ferrous metals and guarantee the accurate and correct execution of orders.
